Location: Brecksville Fire Station

A. GPS training—Mike Packard

The training was on standard GPS techniques with respect to a search event. A video overview was shown with more information available on gps.gov. After the discussion we formed two teams to practice a mock search involving a person lost in the woods behind the fire station. All those that attended agreed that this was an excellent training event and voted to have more gps training scheduled in the future.

Respectfully Submitted, Sue Schindler
